

CM Care

Supplement Facts	
Serving Size 1 Tablet	
	Amount Per Serving
	1000 mg
Daily Value (DV) not established	

Description:

if the body is producing little or no fertile egg white CM, there are some steps can take to help improve the quality and quantity of cervical mucous during the fertile phase for conception.

L-Arginine: It may help to promote cervical mucous by supporting the production of nitric oxide (NO). L-Arginine promotes cervical mucous production and decrease Cervical Hostility.

Essential fatty acids-Omega 3 & Evening Primrose oil help to:

- * Regulate hormones
- * Increase the blood flow to the uterus
- * Reduce sensitivity to the hormone prolactin, which can suppress ovulation.
- * Increases egg white cervical mucus, which is needed to help the sperm reach the egg.
- * Helps menstrual cycle to become normalized.
